LIBRARY, ATLANTA BRANCH
PEACHTREE-7TH BLDG., ROOM 315
50 ATLANTA, GA.

03
PERIODICAL LIST, 1952

The periodicals listed are received in the Atlanta Branch of the U.S. Department of Agriculture Library. Upon request, this material is routed to Department personnel as received. If you would like to have your name added to the regular circulation lists, follow the instructions given below. Do not request material that is not essential to your work. Routing lists are long and essential materials should not be too long in reaching a reader.

HOW TO OBTAIN. Send to the library, on separate slips of paper (3 x 5) the title of the periodical, your name, bureau and address to be included. List only one periodical to a slip, that is, if you would like to see five periodicals, you should submit five slips. These slips can be sorted easily and revision can be speeded up. If you would like to have your old record canceled, please indicate so, otherwise it will only be revised.

LOAN LIMIT. Time of loan for each periodical is limited to three days. However, as quickly as you finish with a publication, please forward--the readers listed below you will be grateful. If you have not finished with a publication within the three day limit, add your name to the bottom of the list and it will be returned to you on special circulation.

When more than one person from an office uses material routed to you, please give the names of each person interested, so that circulation time can be justified. Upon receipt of material, date the routing slip, giving date received and date forwarded.

To economize your time and still keep informed of current information pertaining to your work, check the Bibliography of Agriculture each month and eliminate the task of having to scan so many journals. This is a comprehensive bibliography, international in scope with citations listed under subject.
